

THE PROBLEM

- Existing barriers to digital co-creation between HEIs and NGOs
- Lack of insights into successful co-creation in the digital sphere

OUR APPROACH

- Desk research: Identifying appropriate platforms and methods for digital co-creation
- Qualitative expert interviews: Gaining in-depth insights on success factors, barriers and requirements towards digital co-creation

OUR SOLUTION

- Creating a graphical user interface with digital co-creation tools (CoCreAid Kit 4.0)
- Increasing social impact in participating European countries and beyond by providing more guidance, advice, and training material to all stakeholders in digital co-creation
