

Webinar series: *Tech-based entrepreneurship (Poland)*

Description

In 2018 Polish Federation of Engineering Associations (NOT) started an initiative to provide tech entrepreneurs with insights regarding starting up and developing a business. Thus, it established collaboration with several universities to deliver specialized training workshops.

As university trainers and workshop participants were located in different cities, it was decided that the workshops would be held online.

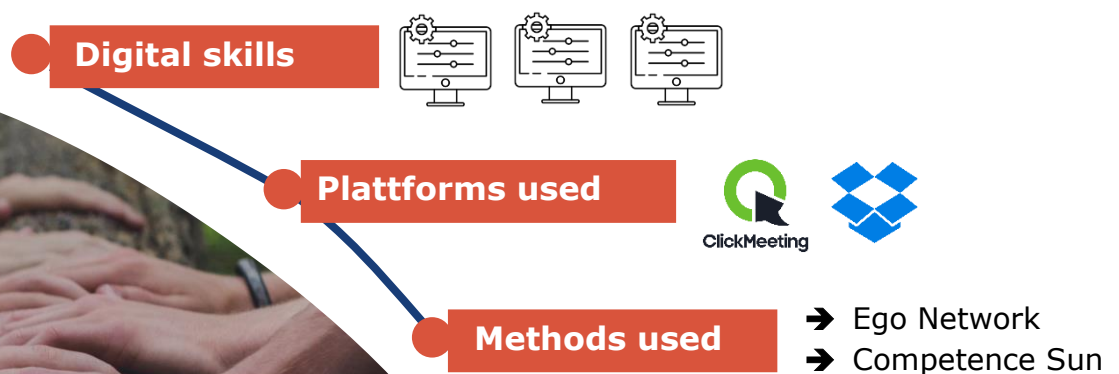

Partner organizations

- Polish Federation of Engineering Associations NOT (PL): NGO from West-Pomeranian Region
- [Lodz University](#) (PL): HEI in Lodz Voivodship
- [Szczecin University](#) (PL): HEI in West-Pomeranian Region, Szczecin

What worked well?

Training sessions were delivered remotely utilizing the good trainers in a field without the necessity to cover travel cost.

- **Learning:** It is difficult to deliver online training sessions without both-side interaction.

CoCreAid Kit 4.0

The CoCreAid Kit 4.0 focuses on overcoming barriers to cooperation arising when HEIs and NGOs co-create digitally. By offering a digital platform with various digital tools and methods, the aim is to increase social impact in participating European countries and beyond.
